

Erik Balster, MPH, REHS, RS, CDI, - Health Commissioner for Butler County General Health District, where I oversee public health programs, regulatory services, emergency preparedness, and organizational operations that protect and improve the health of Butler County residents. With more than 15 years of public health experience, my career has spanned epidemiology, environmental health, community health initiatives, and executive leadership. I provide strategic direction and oversight for departmental operations, workforce development, community partnerships, and public health accreditation efforts while advancing the agency's mission to promote and protect the health of our communities. I've served as AOHC President and a variety of other board positions across various Public Health and Public Health-adjacent sectors. I am also an avid musician.
